

Model AS-201

Advanced PLC Training System

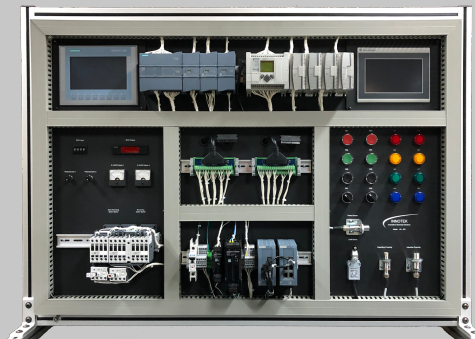

The Advanced PLC Training system provides participants with hardware allowing for hands-on experiments in PLC programming and control of digital and analog devices. The system gives access to onboard input and output devices in addition to providing several add-on applications for exploring more advanced Topics. The base system includes:

- Tabletop or Mobile Frame
- (6) Pushbuttons
- (2) Selector Switches
- (8) Indicators
- (1) Inductive Proximity Sensors
- (1) Capacitive Proximity Sensor
- (1) Diffused Photo Sensor
- (1) Limit Switch
- (1) Non-Reversing Motor Starter
- (1) Reversing Motor Starter
- (2) Analog Potentiometers
- (2) 0-10V Analog Meters
- (1) PLC

- Any Brand PLC
- Any Brand HMI
- Any Brand Drives
- Any Communication Protocol
- Pre-Wire or Self-Wire
- Smart Sensors

- Variable Speed Drive Application
- 3-Phase Motor
- 3-Phase Conveyor Application
- PID Pressure Application
- Dual PLC/HMI Option

Additional Options Include:

- HMI
- BCD Thumbwheel/Display Application
- Electro-Pneumatic Application
- Electro-Mechanical Application
