PNEU-101

Pneumatic Training System

The PNEU-101 Pneumatic Training System provides students with hardware allowing for hands-on activities covering the fundamentals of pneumatics and control of pneumatic equipment. The system gives the student a platform to develop various circuits for both air and electrical controls.

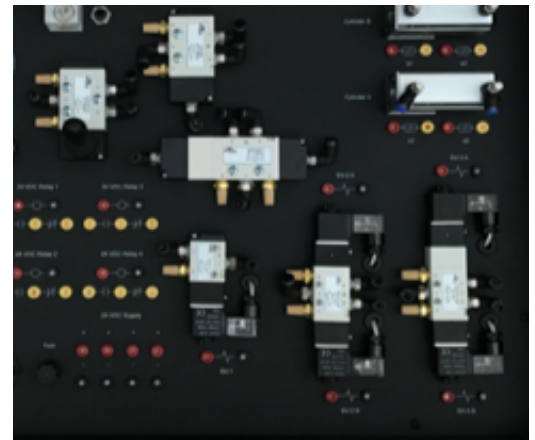

System Contents

- Hard Shell Protective Case with removable cover or table top frame
- Integrated 24vdc Power Supply
- 120vac Power Entry Cable
- Illuminated On/Off Power Switch
- Fuse Protection
- 24 vdc Power Supply
- (1) NC Pushbutton
- (1) NO Pushbutton
- (1) Selector Switch
- (3) Indicator Lights

- (2) DPDT Relay's
- (1) Filter/Regulator
- (1) On/Off Supply Valve
- (2) PSI Gauges
- (1) 5-Port Manifold
- (1) Flow Meter
- (1) Single Acting Cylinder
- (2) Double Acting Cylinders
- (1) Air Motor
- (3) Solenoid Operated DCV's
- (2) Air Pilot Operated DCV's
- (2) Manually Actuated DCV's
